

Pregnant in Central Zone (Halifax and surrounding area) and looking for a prenatal provider?

You DO NOT need a referral to see a Family Doctor who delivers babies (FM-OB, or “family medicine-obstetrics”, family doctors who have extra experience with prenatal care, low risk deliveries, and postpartum care)

The list below includes FM-OB providers in the Halifax area who follow pregnant patients for the duration of their pregnancy in their community clinics and deliver babies at the IWK. Depending on volume of requests, specific physician or clinic availability may vary over time, you may need to call more than one clinic.

Our providers are grouped
into the following areas:

HALIFAX CENTRAL (page 2)

CLAYTON PARK (page 3)

BEDFORD (page 3)

SPRYFIELD / TIMBERLEA (page 4)

DARTMOUTH (page 5)

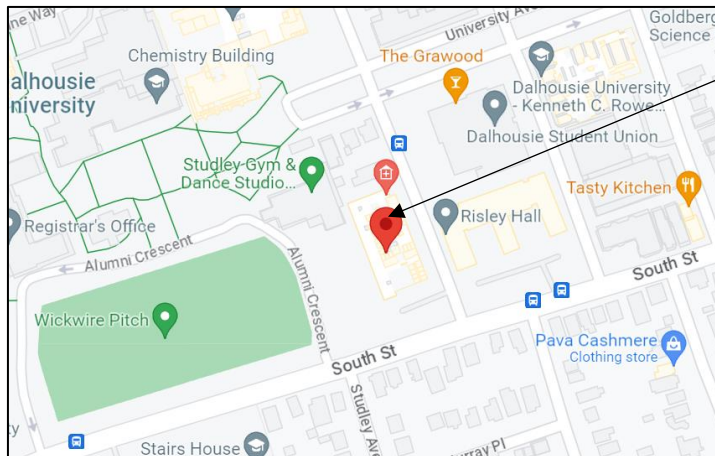

Please note: These providers are unable to take patients on as their long-term family doctor. If you have no family doctor, please place yourself on the [Nova Scotia Need a Family Practice Registry](https://www.nshealth.ca/abortion). During your pregnancy, your baby can also be added to the Unattached Newborn list to ensure your baby has care for the first few months of life while awaiting attachment to a long-term family doctor.
