

IWK Health

More than a career. A place to belong.

Bring your expertise to one of Canada's leading health care centres.

At the **IWK Health Centre**, you'll do work that matters every day. Based in **Halifax, Nova Scotia**, we are Atlantic Canada's only tertiary and quaternary care centre dedicated to women, children, youth and families.

Whether you're an experienced physician, nurse or just beginning the next chapter of your career, you'll find opportunities to grow, collaborate and make a lasting impact alongside some of Canada's most respected healthcare professionals.

"IWK Health is where I went through some of my hardest days, but it's also where I met some of the most compassionate people I've ever known. The care I received here shaped who I am, not just as a nurse, but as a person. I had no idea then that I'd actually grow up to be a nurse at the same hospital that helped me through my own journey. It really feels like everything has come full circle."

–NICU nurse Tori Sabean, who joined IWK Health 10 years after being a patient here.

4,400+
dedicated employees

WHY CHOOSE THE IWK?

Build your skills and explore new opportunities through mentorship, education, professional development and interdisciplinary learning. IWK employees have access to a range of development opportunities, including:

Mentorship: One-on-one relationships that support personal and professional growth through shared experiences, insights and skills.

IWK Certificate Programs: Learning pathways focused on professional development, education and holistic wellness.

Leadership Development: Practical learning, tools and peer connections designed to support employees in formal leadership roles.

Learning & Education Funding: Financial support for continued education, professional development, conference attendance through the *Empowerment Through Learning Grant*.

LIVE WHERE OTHERS VACATION.

Choosing the IWK also means choosing **Nova Scotia.**

End your workday and be at the ocean in minutes. Located just 1.1 km from Halifax's beautiful waterfront, the IWK offers the **perfect balance between career and coastal living**.

Explore world-famous coastlines, vibrant communities, incredible food, live music and endless outdoor adventures—all without sacrificing the conveniences of city living.

With shorter commutes, welcoming communities and an exceptional quality of life, Nova Scotia offers the balance many healthcare professionals have been searching for.

Be part of the future of pediatric emergency care. Opening in 2027, the **IWK's new $127 million state-of-the-art Children's Emergency Department** will provide modern spaces, advanced technology and family-centred design to support exceptional care.
